For Parents of Children (grades 4 - 10) PARENTS ONLY

In this powerful 2 hour presentation, you'll learn about the current research being conducted around the physical and hormonal development of the tween and teen brain.

This information will help you better understand some of the typical/atypical behaviors associated with tweens and teenagers. We'll share tools and create a forum for questions and answers.

This presentation provides you with explanations and useful tools you'll need as a parent of an adolescent.

Testimonial from a HOPE parent:

"This presentation helped me to better understand the strange behaviors my teen is currently exhibiting, and also provided me the tools to deal with it."

Have you noticed any of the following behaviors in your child:

- a lack of focus
- a lack of motivation
- poor impulse control
- poor organizational skill
- poor judgment

\$15 per person / \$20 per couple. Covers event cost and all course materials.

Please mail your payment and the registration form below to:
